The enclosed saloon contains on the port side a settee with stowage beneath. The settee pulls out to form an optional extra berth. Illustration shows the twin folding doors and hatch into the main cabin, helmsman seat with armrests and the side view in the doorway of the cocktail cabinet. A sliding hatch is fitted to the roof of the saloon also sliding windows to port and starboard, thus giving excellent ventilation. 3 windscreen wipers and 2 fluorescent lights are fitted as standard. The saloon floor can be fitted with either carpet or tiles.

**A design  
of sheer  
beauty**

# Birchwood 29

The main cabin is open plan design with 2 single berths up forward, closed off with curtains. Stowage lockers are under each berth also fiddle shelf above the padded backrests. An escape type forward window is fitted which can be removed for added ventilation. Port side of the main cabin is a dinette raised from the cabin floor to give passengers good visibility through the windows. Full hanging wardrobe is fitted between the main bulkhead and the dinette. 2 drawers are also fitted underneath the dinette with a cupboard either side. At night the table is lowered and with 2 separate cushions, forms a double bed. A good quality carpet is fitted to the cabin and a choice of upholstery is offered.

## ***Birchwood 29***

The 2 illustrations on this page show the teak finished galley and separate toilet-shower compartment. A calor gas type water heater is fitted as standard. This is pressurised and supplies hot or cold water at the turn of a tap. A stainless steel top on the galley incorporates a double gas ring. The complete galley can be enclosed with hinged flaps and sliding doors, to form a neat piece of furniture. A full sized oven is supplied, also an abundance of drawers and cupboard space. The shower compartment is lined out in Formica and contains the normal toilet and shower fittings, including hand basin etc.

## *Birchwood 29*

Front illustration of boat clearly indicates the wrap around stainless steel pulpit which gives added safety when at sea. Navigation lights, twin tone horns are all standard fittings on this luxury cruiser. Stainless steel grab rails are also fitted to the cabin roof. All decks and the cabin roof are provided with anti-slip finish.

## Guarantee

Birchwood Boat International Ltd., (the Company) warrants its boats to be free from defects in materials and workmanship under normal use and service for 1 year from the date of delivery to the original purchaser. The obligation of the Company under this Warranty is limited to the provision of a remedy for any such defect without charge but return transportation is to be paid by the claimant with all duties and other fees, if any.

This Warranty does not apply to:

- Engines, outdrives, controls, batteries, propellers or other equipment and accessories carrying separate warranties from their respective manufacturer.
- Installation by others of engines or accessories.
- Any boat which has been altered, subjected to misuse,

negligent operation or accident or used for racing purposes.

This Warranty is personal to the original purchaser and is not assignable.

The boat has been examined and found satisfactory by the original purchaser at delivery and except so far as express warranties are given above all other warranties, terms, conditions and representations, of whatever nature whether the statutory common law or otherwise are excluded and none shall be taken to have been given or implied from anything said or written in negotiations leading to the sale and the Company's responsibility is limited to the terms of this Warranty and it shall not be liable for consequential damage or loss resulting from any defects.

The Company reserves the right to alter specifications without notice.

The Birchwood 29 is fitted with a choice of engines. Full sound proofing is provided on inboard diesel engines. Automatic fire extinguishers. The hull is suitable for either inboard engine or stern drive units, single diesel inboard or twin stern drives. For stern drive installation we recommend the highly successful Volvo Penta. The 130 h.p., 140 h.p. and 170 h.p. petrol engines also the 75 h.p. diesel and the O.M.C. petrol 120, 140 and 170 horsepower. For the inboard we install a selection of Ford Mercraft diesels ranging from 58 h.p. to 150 h.p. single, according to the customer's requirements.

The exceptionally strong resin bonded laminated glass fibre hull has been specially designed. The design combines a sharp bow entry, a moulded keel with long, flat, well Vee'd run aft to produce an easily planing hull with the ability to give a soft ride in brisk sea conditions.
