

EXPRESS FISHERMAN

Express Fisherman 23

This new addition to the Cleopatra range introduced at the International Boat Show in London, January 1968, is the result of many requests to build an off-shore sports/fishing cruiser of this type.

The Fisherman 23 is designed to be a fast offshore sports/weekend cruiser of contemporary appearance, ideal for game, shark or line fishing and trawling.

All Cleopatra hulls are of glass fibre constructions, using the finest materials and are available in white, dark blue, light blue or light grey, to a high standard of finish.

Superstructures are moulded in one piece, sealed and bolted to gunwhale and trimmed in varnished teak. Colours available are white, pale blue or pale grey.

Inclusive equipment comprises large cockpit, built in fish/storage boxes, sleeping accommodation for two adults, good sized galley with cooker, sink - full headroom in cabin - and plenty of storage space make the long weekend aboard both comfortable, economical and practical. There is a large separate W.C. compartment with marine toilet, handbasin, mirror etc.

The fitted helmsman's cockpit/hardtop shelters the pilot and crew from all extremes of the elements.

Deck areas are of non-slip finish, complete with anchor chain and warp, bollards fairleads and cleats.

The large self draining cockpit comprises of hinged engine box/seat with detachable cushion (single engine version, step up cockpit floor twin screw version) contemporary styled clear varnished cockpit side slatting. The two stout wooden trawling posts are complete with stainless pins and they are through located to cockpit floor recessions. There is a moulded-in calor gas/butane storage with top lid.

There is a large cabin door with stout lock and portable hatch. Both cabin side windows, are side sliding, affording good ventilation.

All these features combine to make your 'Cleopatra Express Fisherman' one of the most stylish, safe and economical, easy to drive 2-berth cruisers which you can buy - all British built with traditional English quality and finish.

Speeds of up to 30 knots have been attained with twin petrol engines.

Specification

Overall length	22' 9"
Beam	8' 6"
Draft	2' 9"
Fuel capacity	50 gallons
Water capacity	20 gallons
Approx. Range	25 hrs./250-300 miles (diesel)
	150 miles (petrol)
Weight	3,750 lb. approx.
Overall height	8' 6"
