

# FAMILY SIXTEEN MK4 De~Luxe

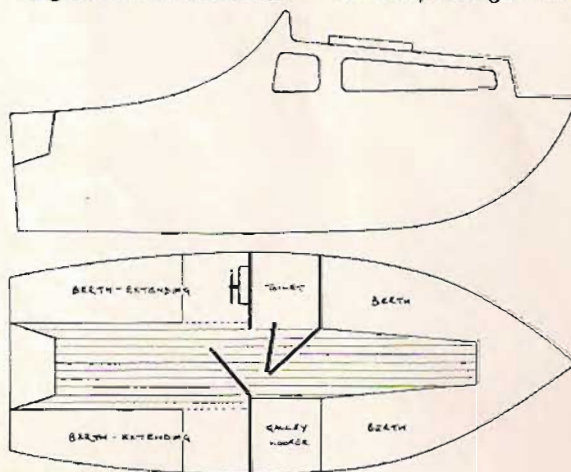

From a boat-building family a boat for the family! Following the success of the Family Sixteen, Mayland Marine have produced for the coming season the **FAMILY SIXTEEN MK IV DE LUXE**. By shortening the foredeck the cabin has been extended to provide really sumptuous accommodation without reducing the size of the cockpit. An additional window in the cabin provides even more light and enhances the spaciousness. Four berths – two in the cabin – two in the cockpit – all with ample storage space under, galley locker, cooker space, and a *separate enclosed toilet compartment* spell luxury for all the family. Externally a distinctive looking craft, with *the windscreen now an integral part* of the superstructure. Functional lines, achieved by simulated clinker construction – clean bow entry, reducing spray – extreme stability – can be towed by small family car – for use on canal, river or coastal waters – all this at a price within everyone's reach.

**Standard Boat** complete with: Berth cushions, canopy, spoked steering wheel, cabin door, mahogany grab rails, chrome deck fittings, bow eye, **extra wide rubber fender strip**, cockpit edge trim, cabin top hatch.

See price list for options, these include, Headlining – Door Lining, Sink, Flipper Pump, Cabin and Navigation Lights etc.
