

SIXTEEN Fisherman

Specifically designed for coastal water fishing. Large cockpit – space for four rods and all the necessary tackle – clear of all obstructions, with a non-slip finish to the floor. The extremely stable hull will allow a 15 stone man to walk round the gunn'l without the worry of trimming. Clean cut lines and a practical layout make this a fine seaboat. Even with such a large cockpit the cabin will still comfortably accommodate four adults seated on the two berths and there is a roomy hatch to give access to the foredeck. We feel sure that in a Mayland Fisherman Sixteen your chances of a good catch will be enhanced, but should the catch be poor – change your bait and not the boat!

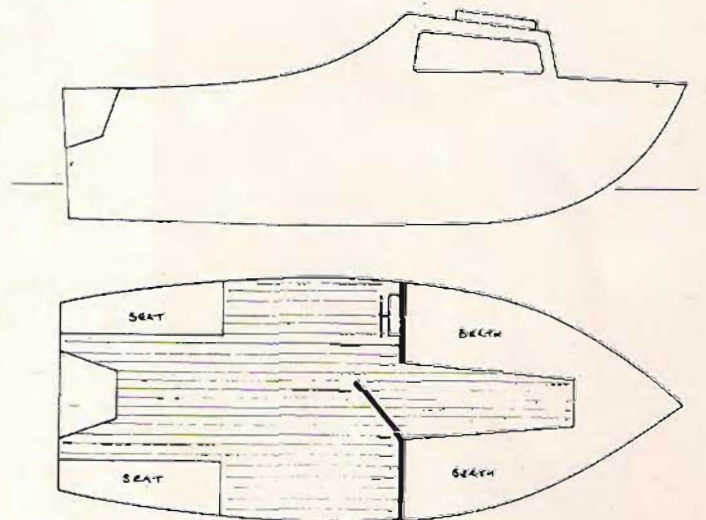

Standard Boat complete with: Cabin Cushions, Windscreen, Spoked Steering Wheel, Chrome Deck Fittings, Bow Eye, Mahogany Grab Rails, Cabin Door.

Our price list gives details of options.
