DIAMOND SEDAN 30 ...THE EXCITING FLAGSHIP OF THE RELCRAFT LUXURY RANGE

The NEW Diamond Sedan 30 is the latest addition to the glittering Relcraft range, and represents an exciting new trend in motor boat design.

Combining 25 years of production experience with the latest in styling, the Diamond Sedan is built for sea going families, providing optimum comfort and space while in harbour, and a smooth, safe ride at sea.

The large, fully carpeted deck saloon, with sliding patio doors affords luxury entertaining areas with deep upholstered settee and chair, cocktail cabinet, book case and many other creature comforts. A large sliding sunshine roof and opening side windows provide a superb area for relaxing and socialising.

With this entirely new interior design we offer a large horseshoe shape double bedroom, with fitted wardrobes forward and a large toilet compartment, superbly furnished with shower, shaving points and a vanity unit.

An alternative to the 6 berth version illustrated, is a 4 berth layout comprising a large double bed and 2 saloon berths.

The galley is a housewife's dream with everything you could possibly need. Plenty of storage, an electric fridge, colour matched sink and cooker units. In fact, everything readily to hand for the "chef".

The deep V hull on the Diamond Sedan is designed for fast offshore cruising, providing a smooth, soft ride at speed, and at anchor the reserve chine design allows excellent stability.

She is built to the same exacting standards that make all Relcraft cruisers real quality craft and may be powered by petrol or diesel engines to choice. Just open up the throttles and you will find her an irresistible force on the water.

The Diamond Sedan 30 is a shining example of Relcraft's reputation for constant development and innovation.

She is undoubtedly a real gem!

- Italian style design
- Excellent, fast, off-shore cruising performance
- Superb stability when at anchor
- Spacious luxury saloon with sliding sunshine roof.
- 4 or 6 berth layouts available
- "Dream" galley with all mod cons
- Interior finish to the very highest standards of craftsmanship
- Flybridge version (not illustrated) also available.
