Cabriolet

Welcome to the world of Shadow powerboating – the Shadow 33 is the flagship of the Shadow range offering perfect therapy for your body and soul.

As the proud owner you'll enjoy the privilege and extra convenience of a private aft cabin – with its own en-suite shower and toilet.

The ultimate in exterior styling ever conceived, ensuring that the Shadow 33 will be turning heads well into the 1990's.

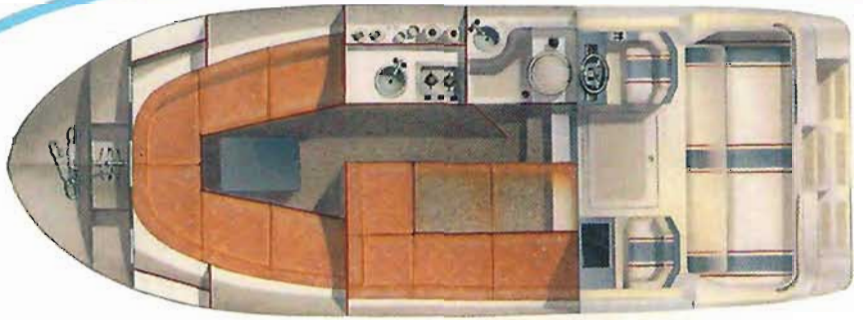

Depending upon engine choice the Shadow 33 will propel you at speeds approaching 40 knots\* while still being an extremely stable and capable leisurestyle for you, your family and friends.

Shadow ownership is all about your choice – there are even two versions to choose from.

The Shadow 33 comes with an integral stylish wheelhouse top incorporating a roll across sunroof so nothing can cloud your day – should the sun dip behind a cloud just roll the roof closed and carry on cruising to distant horizons.

The Shadow 33 *Cabriolet* has a completely open cockpit with an easily removable canopy allowing you to catch all the sun you want.

# SHADOW 33

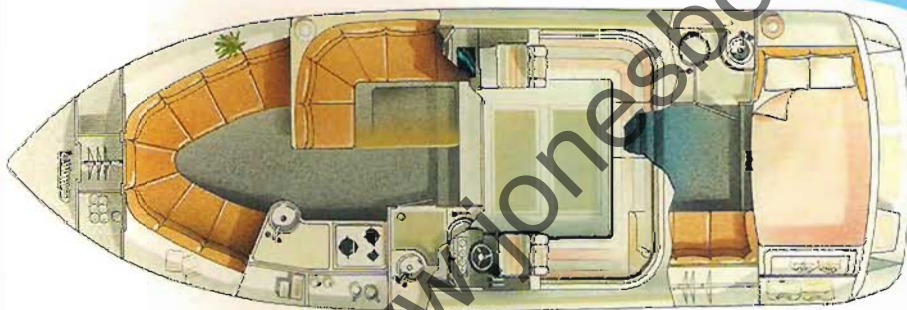

It's easy to forget that your boat is just that little bit different. The Shadow has the racy good looks, sleek lines and superb performance one expects from any true pleasure-boat.

It's only when the sun dips behind a cloud that you realise the Shadow's big difference. You're not trapped in an open, exposed cockpit - so nothing can cloud your day. Just roll the roof closed and carry on cruising, and roll it open again when the sun comes out of hiding.

Imagine yourself stretched out in the sun on that enormous foredeck; picture the children splashing about near the bathing platform, then clambering back aboard into the warmth of the sunny cockpit.

When evening falls you simply open up the cabins from stem to stern and roll down the cockpit awning to create an enormous and infinitely versatile family living area. Bedtime privacy is assured. Just close off the cabin and you have room for four people in two private cabins. Room for two more adults can be found in the now enclosed cockpit area where the seating converts easily into another comfortable double berth.

Slide open the saloon twin doors and the easy leisurestyle continues below - in fact the cockpit and cabin become one - creating a most versatile and comfortable living space where you can entertain, relax with ease, and sleep a further four adults.

To enhance the on board environment and in keeping with the external aesthetics, Shadow have created a happy combination of interior finishes, blended to easily co-ordinate with your personal choice of colourways.

Catch the spirit of Shadow powerboating - there is no other feeling quite like it!

\* Depending on engine choice

#### Dimensions

LOA	33'3"	10.13 metres
BEAM	11'4"	2.45 metres
DRAFT excl. outdrives	2'6"	.76 metres
HEIGHT ABOVE WATERLINE		
Cabriolet	7'11"	2.41 metres
Wheelhouse	8'9"	2.66 metres

# SHADOW 26

*Riverboat*  
The Shadow 26 is all about choice, you can choose between the standard open-plan layout or the optional **separate forward cabin** which closes off with a sliding door, plus a choice of fabrics, interior furniture finishes and timber trims.

The Shadow 26 *Cabriolet* offers a lower profile – particularly useful when negotiating overhanging trees and low bridges!

### Riverboat Option

If you cruise the inland waterways the Shadow Riverboat option has a specially designed hull to give outstanding low speed manoeuvrability, while an access hatch makes short work of clearing weed-fouled propellers.

The Shadow 26. At last, a powerboat as versatile as our weather.

### Dimensions

LOA	26'4"	8.03 metres
BEAM	9'8"	2.94 metres
DRAFT - Offshore	1'8"	0.51 metres
- Riverboat	2'2"	0.66 metres
HEIGHT ABOVE WATERLINE

## where the living is easy

The Shadow range of cruising powerboats offers you more choice, luxury and freedom, when you are gliding across the water in excess of 30 miles per hour, or when it's time to relax and enjoy entertaining on board...

...Catch the spirit of Shadow powerboating, powerboats as versatile as our weather.

Shadows are available with an 'all weather helm' which incorporates a roll back sunroof, or the low profile open-topped *Cabriolet*.

Living is easy on board the Shadow, the luxury, the comfort and space to entertain and accommodate your family and friends during the day and throughout the night will confirm that you made the right choice -

**Shadow... not just a fantasy.**

[www.jonesboatyard.co.uk](http://www.jonesboatyard.co.uk)

"...it's pleasing to find a British builder producing such a practical cruiser designed specifically for British waters."

*Practical Boat Owner.*

"Her handling makes her a real pleasure to be aboard."

"The standard of finish is excellent throughout."

"...from a comfort point of view would equal many larger boats."

*Motor Cruiser.*

"Once tied up alongside, the living is easy. Good quality furnishings and fittings, plenty of space and well planned accommodation invite comparison with bigger and more expensive boats."

*What Boat.*

"All in all the outward appearance of the Shadow 26 is strikingly impressive."

"The Shadow 26 most definitely presents a designer styled interior for the river boater who desires class and easy cruising."

*Canal & Riverboat*

"Compact but versatile, well thought-out family cruiser. Feels far roomier than any 26-footer has a right to."

*Motor Boat & Yachting*
