

# Shetland Speedwell

Colours available

Magnolia White

Saragossa/Magnolia White

The get-away, anywhere, four-berth adult weekender—Shetland Speedwell, a 20 ft. 3 ins. length cruising boat which has quickly made friends and influenced people, for honest value-for-money.

A versatile cruiser designed for off-shore application, although its 6 ft. 10 ins. beam is narrow enough to navigate all inland waterways

Two single berths in the cabin which the dinette table converts into a large double. Galley space provides a sink and a two-burner cooker; also toilet compartment. A serving hatch adjoins the main, stable type, cabin door. A pleasing interior layout is complemented by the skilful use of colour and oiled teak wood.

Optional in the cockpit are two foldaway berths.

Teleflex type steering controls all long shaft outboard motors of up to 65 h.p. and the Speedwell's wrap-around windscreen repels those spray showers.

The Speedwell can be towed easily by the family car, so base at home and plan where you'll trail her for that next free-from-stress weekend.

# Speedwell

All Shetland boats are made to the same high specification—top grade resins and glass fibre—balsa wood sandwich—extra heavy duty bearers and fully reinforced stress points are all standard to our production techniques.

Hull, superstructure, bulkhead and internal mouldings are all bonded together at point of manufacture to produce a safe, robust boat. Please refer in all cases to our current price list for prices and optional equipment. All boat prices shown include delivery from our works to your nearest Shetland Dealer in England and Wales.
