

Viking 800

The VIKING 800 is a six-berth centre-cockpit offshore cruiser giving spacious accommodation in two private separate cabins, both with full standing headroom. Suitable for single or twin inboard engines.

The VIKING 800 is built from the finest fibre-glass materials by boatbuilders with over 30 years experience. The hull is hand laid-up in the following strengths.

HULL

Bottom — 11ozs

Sides — 8½ ozs

Superstructure — 6½ ozs

Wooden stringers are bonded-in throughout and the entire craft is further strengthened at all points of stress.
